

Winter 2021 Alexandria Mobility Plan (AMP) Project Update

Draft Plan COMING SOON – please stay tuned for how to review and provide your feedback!

We are all happy to have 2020 in our rear-view mirrors. The AMP project team remains grateful as we reflect on what we, as a community, have accomplished through the [Alexandria Mobility Plan](#) process. **Together, we moved forward with this critical transportation plan for our city's future** to continue serving the needs of City residents, businesses, and visitors as the region grows and as new technology changes the way we think about transportation and mobility.

Back in fall, we released the AMP [Draft Strategies](#) that evolved from our earlier vision and priorities engagement phases. We kicked off the AMP Draft Strategies engagement phase with our **October 15 Virtual Town Hall and live Q&A session**. The AMP project team would like to **thank** all who attended!

We would also like to express our gratitude to all who invested time to review the AMP Draft Strategies and provide feedback – **your input matters!** We have been working to make adjustments to the Draft Strategies to address your questions and concerns raised during the review period. Please [review the comprehensive summary](#) of those findings shared at a recent Advisory Committee (AMPAC) meeting.

We would be remiss to not also acknowledge and offer heartfelt appreciation to the AMPAC. The Advisory Committee has played a critical role offering guidance during the course of this nearly two-year process – **thank you again!**

We **anticipate releasing the Draft Alexandria Mobility Plan in the March/April timeframe** for public review and comment. Please stay tuned for our eNews announcement, flyers, and social media posts informing when the draft document and short feedback form are made available. **And please help spread the word to others!**

If you have any questions or would like to make sure you are receiving project updates, please contact MobilityPlan@alexandriava.gov. **Thank you again** for helping us plan for the future of our city's mobility!
